

Production: Camera Switcher

Position Type: Part-Time | Supervisor: **Service Producer**

JOB OVERVIEW:

The Camera Switcher is responsible for managing and operating video production equipment during church services and events. This role plays a vital part in ensuring a smooth and immersive experience for both the in-person and online guests by capturing and switching between various camera angles and creating dynamic and engaging content.

RESPONSIBILITIES & DUTIES:

- Operate camera switcher equipment to switch between multiple cameras during church services and events
- Follow directions from the Service Producer to determine which shots to capture and when to switch camera angles
- Ensure all camera shots are framed correctly, in focus, and properly exposed
- Coordinate with other production team members, including camera operators, audio technicians, and lighting technicians, to ensure seamless transitions between cameras
- Troubleshoot technical issues that may arise with the camera switcher equipment during live productions
- Assist with camera set-up and tear-down before and after services or events
- Maintain clean and organized work area and equipment storage spaces
- Commit to 1 week of serving each month.

SKILLS & QUALIFICATIONS:

- Previous experience operating camera switcher equipment in a live production environment is preferred but not required; on-the-job training will be provided for motivated candidates
- Basic understanding of video production techniques, such as framing, composition, exposure, and focus

- Ability to work under pressure in a fast-paced environment while maintaining attention to detail
- Strong communication skills and ability to follow directions from the Service Producer
- Basic troubleshooting skills for resolving technical issues related to camera switcher equipment
- Willingness to work flexible hours, including evenings and weekends, as needed for church services and events
