

Production: Sound Technician

Position Type: Part-Time | Supervisor: **Service Producer**

JOB OVERVIEW:

The Sound Technician is responsible for operating and maintaining the church's sound equipment, as well as ensuring proper sound mixing and balancing to ensure the highest quality audio experience for all church services and events.

RESPONSIBILITIES & DUTIES:

- Set up and operate all sound equipment, including microphones, speakers, amplifiers, and mixing boards, ensuring optimal sound quality.
- Perform regular maintenance and upgrades to sound equipment, troubleshooting any issues that arise.
- Collaborate with the worship team and other staff members to understand their audio needs for each service or event.
- Choose appropriate sound effects and background music based on the requirements of each service or event.
- Mix audio sources during live performances, adjusting levels and equalization to achieve an optimal sound experience for the audience.
- Coordinate with other technical teams (such as lighting or video) to synchronize all elements of a production for a seamless experience.
- Train and supervise volunteer sound operators, providing guidance and support as needed.
- Stay up-to-date with industry trends and advancements in sound technology.
- Commit to 3-4 weeks of serving each month.*

SKILLS & QUALIFICATIONS:

- Previous experience working as a Sound Technician in a church or similar environment is preferred.
- Proficiency in operating professional sound equipment, including microphones, speakers, mixing consoles, and amplifiers.
- Knowledge of audio signal flow and the ability to troubleshoot audio issues quickly.
- Familiarity with digital audio workstations (such as Pro Tools or Logic Pro) is a plus.
- Excellent communication skills, with the ability to work collaboratively with other team members.
- Strong attention to detail and organizational skills, particularly when working under time constraints during live performances or events.
- A passion for creating a high-quality audio experience that enhances the worship environment for all attendees.
